intermittent Fever, or Pever and Ague Remittent Fover, Chill Fever, Dumb Arne, Periodical Headache, or Bilious Headache, and Bhione Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that ne harm can arise from its use in any quan-That which protects from or prevents this

This "Cure" expels the missinatio poison of Paven and Acce from the system and provents the develop-ment of the disease, if taken on the first apment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilions districts, where Favan and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poer as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no Quimine or mineral, consequently it prono Quining or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the mia-matic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Crax" expels the poison from the blood, and consequently cures them all alike It is an invaluable protection to immigrants and persons travelling or temporarily residing in the medarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords. Their penetrating properties ararch, and cleaned, and invigorate every portion of the human organism, correcting its theeseed action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is autorished to find his health or energy restored by a ramedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases.
